

Kaspersky[®] Internet Security for Android

Quick Start Guide

The license period starts when you activate the product on the first device.

The number of devices that can be protected varies according to the type of license purchased.

Thank you for choosing Kaspersky® Internet Security for Android

Get started

- Visit the My Kaspersky portal – my.kaspersky.com.
 - If you don't already have a My Kaspersky account, it's easy to create one and it's free of charge. During the license period, your My Kaspersky account will give you access to the applications that you'll need to install on your devices. Your My Kaspersky account also lets you manage each device's security – via the Web – and lets you use Web versions of some of the applications.
 - If you already have a My Kaspersky account, please sign in – using your login & password.
- Click on the 'Licenses' tab and then enter your activation code into the appropriate field (you can find your activation code on the card inside the product box you purchased.) Activation codes are in a 20-character format e.g. XXXXX-XXXXX-XXXXX-XXXXX.
- Click on the 'Downloads' button on the lower right corner of the product tile to view the applications that are available for you to download and install.
- If you send the download links to your email, you will be able to access the links on any of your supported devices.
- When you install applications that you have downloaded from the My Kaspersky portal, the installation process will usually run automatically – without you having to enter data in the 'sign in window'. In some cases, applications may ask you to enter your My Kaspersky credentials. If this happens, please sign in – using your login & password for your My Kaspersky account.
- Alternatively, please use one the following instructions.

Installing security on your devices

For your Android™ devices (via Kaspersky Internet Security for Android)

1. Installing the application

- Scan the QR code to download the application directly to your device.
- Or enter mobile.kaspersky.com in your device browser and run the installation.

2. Activating the application

Activation is required in order to enable all of the program's features and to receive free technical support.

- Use the activation code provided on the card inside the product box you purchased. (e.g. XXXXX-XXXXX-XXXXX-XXXXX).
- Tap 'I have an activation code' link during product setup.
- Enter the activation code in the appropriate field.

For Android

Frequently Asked Questions

Question

Answer

How many devices can I install the product?

You are entitled to use Kaspersky Internet Security for Android for a number of Android devices as indicated on the product box.

- to get protection against phishing websites and malicious links.

What should I do if I purchase new device and want to transfer my security solution to it?

As long as you do not exceed the number of devices supported by your license, you can uninstall and reinstall the application whenever you need and use your activation code.

Where can I find my activation code if it is lost?

If you registered your product during activation process on My Kaspersky portal, your activation code will be saved in your My Kaspersky account – at my.kaspersky.com.

If you can't find your activation code at the My Kaspersky portal, you can send a request to our Technical Support team – via your My Kaspersky account.
